

We are all antimicrobial users.

Every day, tiny superheroes known as antimicrobials are used to help kill or prevent the growth of bacteria, viruses and fungi. These good chemistries touch many aspects of our daily lives, often without us even realizing it.

You are
Anti-Infection
if:

You've been
cared for in a
healthcare or
hospital setting

You wipe
frequently
touched
surfaces

*Antimicrobials
are among the
first lines of
defense in the
battle against
infections.*

With the use of antimicrobials, you are doing the right thing to protect yourself and your family. Learn more at goodchemistryliveshere.com.   @GoodChemistryLH
