

# We are all antimicrobial users.

Every day, tiny superheroes known as antimicrobials are used to help kill or prevent the growth of bacteria, viruses and fungi. These good chemistries touch many aspects of our daily lives, often without us even realizing it.

You are  
**Anti-Infection**  
if:

You've been  
cared for in a  
healthcare or  
hospital setting

You disinfect  
frequently  
touched  
surfaces

*Antimicrobials  
are among the  
first line of  
defense in the  
battle in helping  
to fight infections.*

With the use of antimicrobials, you are doing the right thing to protect yourself and your family. Learn more at [goodchemistryliveshere.com](https://goodchemistryliveshere.com).   @GoodChemistryLH
